

"The best part of this program is that they help me apply what they taught, by trading live in front of me. That is the biggest reason why I am still a member".

David Barrett

MEMBERS SUCCESS STORIES

By Patrick Salimi

David has been a member of OPTIONSOURCE.NET for a year and plans to renew his membership for a second year. We had a chance to sit down with David and talk about his trading experiences. David lives in Ontario Canada.

David, what is your professional background?

DB: I spent the early part of my life in the banking industry but for the past 30 years I owned a marketing agency and we worked with some of the largest retail outlets across Canada.

What motivated you to learn to trade?

DB: I got introduced to trading in 1998 and I realized quickly that trading was more powerful than any business I had seen. I wanted to learn as much as I could, I realized that successful traders had the proverbial money tree in their back yard. The marketing company was becoming a headache, we had grown to 70 staff members across Canada and I was looking for a headache-free business, trading was the perfect fit.

How were you introduced to OPTIONSOURCE.NET?

DB: I bought one of those home study courses and spent many years pouring over everything in it. I later realized that the

course was set up so that I would keep spending money without actually trading. It was frustrating. I knew this business worked, I just did not know how to make it work. I began to look for a company that would trade along with me, I was really looking for daily mentoring not more education. That is how I came across OPTIONSOURCE.NET.

What has the membership done for you?

DB: I have to say I was VERY skeptical at first, I asked the coaches to show me if they were trading. I wanted to make sure this was for real. What impressed me was the performance record. The membership is helping me protect my hard earned dollars. I am a conservative trader and I use the membership to help me with protective put strategies. The best part is I am not afraid of investing anymore. I feel I am fully protected if the markets go against me. The "Options For Insurance" is fantastic. I can buy a stock and know that I get my money back if the market goes against me.

What is the best part of the membership?

DB: It's tough to choose one. I love having

Continued:

access to a professional trader EVERYDAY of the year. I love how a trade is given AND they show how to manage it. I think the best part would be the coaches. I find them down to earth and they make themselves available. What I love the most is the results, how can you argue with 100% plus profits last year?

What challenges did you face when you started trading?

DB: I would have to say lack of confidence in my knowledge. I knew how it worked, I knew why it worked, I just did not know how to manage a trade. I would be in a trade and my emotions would take over, and that is a hard thing to overcome.

How has the membership helped you overcome those challenges?

DB: As I mentioned before, the daily tutorials is what keeps me laser focused. The trade alerts are great, but the fact that I have access to the "team" everyday is what helps the most. I can ask questions and many times they have held my hand through a trade and kept me from letting my emotions get the best of me.

What is your next step with the membership?

DB: I am slowly learning to apply the complicated strategies. I attend as many Webinars as I can with Patrick and Jason. I am constantly learning.

I guess the next thing for me is to spread

my wings and apply more aggressive options strategies, but I have no fears this time.

I know there is a webinar for the options I want to participate in every week.

What are your goals?

DB: Time freedom. I look at trading as a business to replace my business. I'm working to quickly get to a level where I can leave what I am doing and focus 100% on my trading business.

What is the best thing about trading for you?

DB: It has everything I have ever wanted in a business. No employees, no headaches, no selling anything to any body. I can trade from a lap top in my backyard. If I want to take a month off I will. Best of all, trading is recession proof, I have seen the best opportunities when the markets were crashing.

Thank you so much David, do you have anything else you want to share?

DB: I wanted to thank the coaches. I don't think they realize how much I appreciate what they have created. I only wish I could have found them earlier. The best part of this program is that they help me apply what they taught, by trading live in front of me. That is the biggest reason why I am still a member.

Patrick Salimi is the director of business development at OPTIONSOURCE.NET.

You can contact Patrick at: psalimi@optionsource.net

OPTIONSOURCE.NET is the leading educator for some of the most prominent exchanges and banks throughout the world. OPTIONSOURCE.NET believes that to succeed in trading, education alone is not enough.
